## QUALITY POLICY

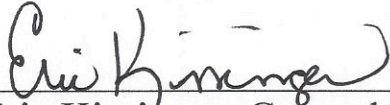

CTC is totally committed to good professional practice and to the highest quality of calibration services to all of our customers.

CTC strives to be the platinum standard of calibration services and is dedicated to the continuous improvement of our quality system. Customer satisfaction remains a top priority.

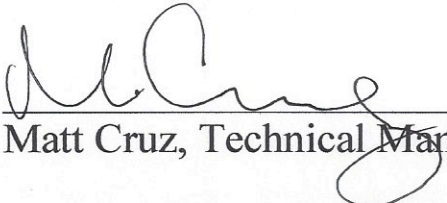

All personnel concerned with calibration activities at CTC have familiarized themselves with the quality system documentation and implement these policies and procedures in their daily work.

The management team at CTC requires all employees to comply with the requirements of both, ISO/IEC 17025:2017 and our customers.

**“We are committed to understanding our customer’s expectations and dedicated to providing services of the highest quality.”**
